## Week 13: Nov 12–18

**Build Content****Assessments****Tools**

### **Turn in a link to your Final Project presentation**

Upload a link to a Google Slides or other online presentation for your final project before 12:30 on Thursday, November 15.

Do not upload a PowerPoint or other file. This must be a link that we can click on when your Final Project time slot comes to display your presentation.

Make sure you have shared your presentation and tested all the content so that anyone who clicks on the link will be able to view your material since you won't have time to log in to your account during the presentation. One way to test it is to go into a private or incognito mode browser window and see if you can open the link and see everything in the presentation.

You will get a "1" for a grade here as a sign to you that your link has been successfully opened by your instructor and added to the Final Project group lineup. This is not your grade for the presentation. You must present your project when called. We will go in reverse alphabetical order and an approximate schedule will be posted but it's subject to change.
